

Mothers of Influence Criteria for Award / Honoree

There are many awards given to women, honoring their accomplishments as women, but few are given in recognition of motherhood.

That is why we designed our Mothers of Influence Awards, to honor that most important and significant role that has the greatest influence on society; because no matter what else we do, we are moms first.

This prestigious award honors mothers who have made a remarkable impact on our society and culture.

They are courageous and dedicated to empowering countless mothers across the nation and significantly contributing to shaping our future.
